OUR MISSION
To create, support and administer alliances to cultivate positive social change.

OUR VISION
An environment where all people are hopeful, engaged and thriving.
From the President

Thank you for making this another remarkable and exciting year for the Partnership! We are grateful for your generosity and service. Your support is invaluable to us; you make it possible for our team to address the critical needs facing our youth and families today.

In this quest, we engaged in strategic planning this year and took a bold leap into 2037 to envision the Partnership of the future. Our vivid description of the future is now rooted in our Mission to create, collaborate, and increase access to services. The Partnership will continue to make a substantial impact for its community. We will strengthen our focus on connections and a regional delivery of service. With shared goals and mutually agreed upon outcomes, we will meet each person where they are…in their culture, community, and in their need. Thank you for joining us in our passion to meet the future where our communities are stronger and our youth and families are thriving.

— Ontario County Sheriff Philip Povero, President

From the Executive Director

We hope you enjoy this year’s gardening theme, which symbolizes our work as nurturing and supporting those in need. We have fantastic results to share — please take a moment to review our accomplishments in this report. As we move forward, our refreshed strategic plan envisions even stronger collaborations and connections. We hope you will “take it to the Partnership” if we can serve or make a connection for you. This year, the Partnership was honored to be one of the agencies featured in the United Way campaign video. In it, our counselors focused on solutions for a family in need. The family said they are now more calm, confident, and able to deal with their child’s critical concern. We are honored to help those who have found positive support and solutions in a connection to the Partnership, and, it is a privilege to work alongside our team in service to the community. Thank you for helping us to help those in need.

— Bonnie Ross, Executive Director
